

Definition of Close Contact:

To have been in close contact with someone you have been:

- within 6 feet (less than 2 meters) of an infected person for more than 2 minutes starting from 2 days (48 hours) before illness/symptom onset or 2 days (48 hours) prior to a positive specimen collection;
- having direct contact with infectious secretions of a COVID-19 infected person (e.g., cough or sneeze); or
- caring for or living with a person with symptoms or a COVID-19 positive case.

Symptoms of COVID:

- A new cough or worsening of a chronic cough
- Sore throat or painful swallowing
- Fever or chills
- New or worsening shortness of breath or difficulty breathing
- Stuffy or runny nose
- Loss of sense of smell or taste
- Headache
- Muscle or joint aches
- New fatigue (tiredness) or severe exhaustion
- Nausea, vomiting, diarrhea or unexplained loss of appetite
- Conjunctivitis, commonly known as pink eye

Self-Isolation:

If a CBOC employee needs to self-isolate, please contact your HR professional to help manage the process
